

CE Activity Announcement

Medication Safety Certificate

ACPE Activity Number(s): 0204-9999-19-779-H05-P and T thru to 0204-9999-19-793-H05-P and T

Release Date: October 30, 2019

Expiration Date: October 30, 2022

Activity Type: See attached

CE Credit Hour(s): See attached, by completion of all activities, may earn a total of 40 hours.

Activity Fee: \$445.00/\$545.00 member/non-member

Accreditation for Pharmacists and Pharmacy Technicians

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

This activity is jointly provided with the Institute for Safe Medication Practices.

Accreditation for Physicians

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society of Health-System Pharmacists and the Institute for Safe Medication Practices. The American Society of Health-System Pharmacists is accredited by the ACCME to provide continuing medical education for physicians.

Accreditation for Nurses

This Continuing Nursing Education Activity was approved by the MARYLAND NURSES ASSOCIATION, an accredited approver by The American Nurses Credentialing Center's Commission on Accreditation.

Certified Professionals in Patient Safety (CPPS)

This activity meets the criteria of the Certification Board for Professionals in Patient Safety for up to 40.0 CPPS CE hours.

Target Audience

This program is intended for pharmacists, physicians, nurses, pharmacy technicians, and other healthcare professionals responsible for improving the safety of medication use in their respective practice settings.

Activity Overview

These modules are designed for participants to recognize the importance of improving medication safety in hospitals and health systems. Participants will develop the knowledge and skills necessary to identify and engage in efforts to minimize and eliminate the occurrence of medication errors. The curriculum will cover the fundamental principles of the medication use process and medication safety culture. The course also will present strategies for identifying and implementing opportunities for medication safety improvements. After completing all of the modules, participants should be proficient in the fundamental concepts required for risk identification, medical error investigation, risk reduction, and general actions required to sustain safe medication practices in their practice settings.

CE Activity Announcement

Disclosures

In accordance with the ACPE's and ACCME's Standards for Commercial Support, all those in a position to control the content of an educational activity is required to disclose to the accredited provider their relevant financial relationships. *An individual has a **relevant financial relationship** if he or she (or spouse/domestic partner) has a financial relationship in any amount occurring in the last 12 months with a commercial interest whose products or services are discussed in the activity content over which the individual has control.* In accordance with these Standards, all potential conflicts of interest have been resolved.

In this activity, only the individuals below have disclosed a relevant financial relationship. No other persons associated with this presentation have disclosed any relevant financial relationships.

- Jamie Irizarry, R.N., B.S.N., M.S.
 - Bainbridge Health: stockholder, clinical advisory board
 - B. Braun Medical Inc. - United States: consultant

Methods and CE Requirements

This online activity consists of a combined total of 15 learning modules. Pharmacists, pharmacy technicians, and nurses are eligible to receive a total of 40.0 hours of continuing education credit by completing all 15 modules within this certificate program.

Participants must participate in the entire activity, complete the evaluation and all required components to claim continuing pharmacy education credit online at ASHP eLearning Portal. Follow the prompts to claim credit and view your statement of credit within 60 days after completing the activity.

Physicians are eligible to be awarded up to *40.0 AMA PRA Category 1 Credits™* by completing all 15 modules within this certificate program.

Important Note – ACPE 60 Day Deadline:

Per ACPE requirements, CPE credit must be claimed within 60 days of being earned – no exceptions! To verify that you have completed the required steps and to ensure your credits have been reported to CPE Monitor, we encourage you to check your NABP eProfile account to validate your credits were transferred successfully before the ACPE 60-day deadline. After the 60 day deadline, ASHP will no longer be able to award credit for this activity.

System Technical Requirements

System Requirements Courses and learning activities are delivered via your Web browser and Acrobat PDF. Users should have a basic comfort level using a computer and navigating web sites.

View the [minimum technical and system requirements](#) for learning activities.
